# THE FUTURE OF L

# H.I.D. • LED

S.M.D. is the prime leader in design, innovation, development, manufacturing and marketing of automotive enhancement parts.

Since the establishment of our headquarters in Southern California in 2003, S.M.D. has played a major role in supplying and manufacturing components for diverse mobile electronics consumers.

S.M.D. introduces new products specifically designed to consistently exceed the quality, reliability and cost objectives demanded by today's marketplace.

Our superior products include handmade custom LED/SMD lights, DRL, fog lights, chrome enhancements, automotive diamond trim, JDM parts, and our new line of SMD led headlights. Our products are manufactured worldwide with fabrication in California, New York, Arizona, Taiwan, Japan and China.

Our substantial growth has been attributed to supplying our product directly to distributors in the mobile electronics and automotive dealers.

Our excellent sales team, on-demand tech support, installation experience and outstanding & exceptional customer service enables us to understand you as a customer so that we may offer the best products and services available to satisfy your every day needs.

## FUNCTION 1

Electronic Relay  
(Triggers at 4 Volts)

Used for:  
Vehicles that use high  
beam as DRL with  
the same bulb

Solution:  
Will convert the DLR  
to 12 VOLTS .

## FUNCTION 2

Third Break  
Electronic Flasher

Used for:  
Motorcycles and cars  
that want an extra  
safety feature.

Solution:  
Break light will flash  
for 2 seconds (variable time  
programmed by user).  
and then it will become  
a solid red light until you  
release the break.

## FUNCTION 3

Programmable Time  
Extender

Used for:  
Extended trigger for  
your alarm scanner,  
power window roll up  
lifter, interior &  
exterior lights.  
(Extension time for your  
vehicle's lights)
