S.M.D is a prime leader in the design, innovation, development, manufacturing, and marketing of automotive enhancements parts. Our headquarters are located in Southern California and we have been in business since November 2003. S.M.D have played a major role in supplying and manufacturing components for diverse mobile electronics by introducing new products specifically designed to meet or exceed the quality, reliability and cost objectives required in today's marketplace.

Our superior products include: handmade custom LED/SMD lights , DLR, fog lights, chrome enhancements, automotive diamond trim, and our new line of racing products. Our assembly is fabricated worldwide with manufacturing in California, Arizona, Taiwan, Japan, China. Our substantial growth has been attributed to supplying product direct to distributors in the mobile electronics, and automotive dealers.

Our excellent sales team , on-demand installation experience and top notch customer service enables us to understand our customers, so we can offer the best products and services available to satisfy their every need.
